Castle Street Improvements – Fortnightly Update

Fortnightly Look Ahead: 29 September – 9 October 2026

Over the next two weeks, works will continue across the various phases of the Castle Street Improvements Scheme, with a focus on footway construction, paving, kerbing, drainage and ducting activities.

Phase 2A

- Continue footway construction.
- Continue paving installation and grouting works.

Phase 3

- Continue lighting column foundation works.
- Install sign foundations and posts.
- Continue highway kerb installation.

Phase 6

- Continue Pennant paving works along the shop frontages.

Phase 7

- Continue Emtelle and traffic signal ducting works.
- Continue highway kerb installation.

Phase 8

- Continue Pennant paving along the footway.

Phase 9

- Traffic management setup scheduled from **12 October 2026** in preparation for the next phase of works.

Phase 12

- Progress drainage works.
- Continue traffic signal ducting installation.
- Continue highway kerb installation.

Working with Businesses and Residents

We appreciate the continued patience and cooperation of businesses, residents, and visitors while these improvement works are carried out. Pedestrian access to properties will be maintained at all times, and our team will continue to liaise directly with affected stakeholders where necessary.

For any questions regarding the scheme, please contact us.

Thank you
