

Improvement updates- October

We're pleased to share the latest update on the Hailey Park Taff Trail Improvement Works, which began in September on behalf of Cardiff Council.

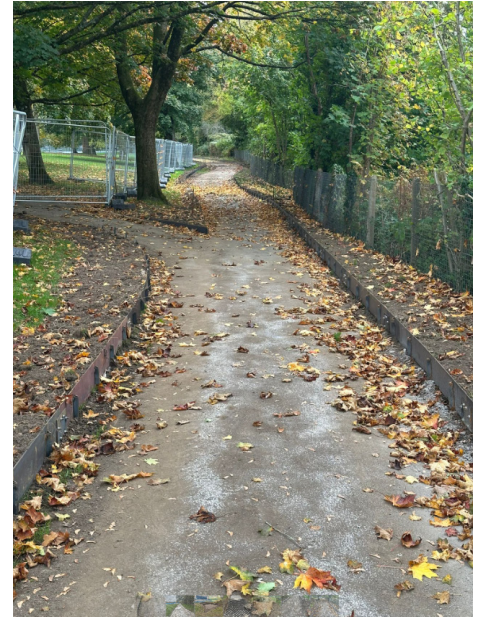

Our team has been working hard to upgrade the section of the Taff Trail running through Hailey Park, between Bridge Road and Ty Mawr Road. This project forms part of Cardiff Council's ongoing commitment to improving active travel routes across the city, providing a safer, smoother, and more accessible path for everyone to enjoy, whether walking, running, or cycling through the park.

What We've Achieved So Far...

Since work began, we've made excellent progress on the groundwork and path preparation:

- Levelled the existing ground in preparation for installation.

- Installed steel edgings to securely hold the new footpath in place.

Diweddariadau gwella - Hydref

Rydym yn falch o rannu'r diweddariad diweddaraf ar Waith Gwella Llwybr Taf Parc Hailey, a ddechreuodd ym mis Medi ar ran Cyngor Caerdydd.

Mae ein tîm wedi bod yn gweithio'n galed i uwchraddio'r rhan o Lwybr Taf sy'n rhedeg trwy Barc Hailey, rhwng Heol y Bont a Heol Tŷ Mawr. Mae'r prosiect hwn yn rhan o ymrwymiad parhaus Cyngor Caerdydd i wella llwybrau teithio llesol ar draws y ddinas, gan ddarparu llwybr mwy diogel, llyfnach a mwy hygyrch i bawb ei fwynhau, boed yn cerdded, rhedeg neu feicio trwy'r parc.

Yr Hyn Rydym Wedi'i Gyflawni Hyd yn Hyn...

Ers i'r gwaith ddechrau, rydym wedi gwneud cynnydd rhagorol ar y gwaith sylfaen a pharatoi'r llwybr:

- Gwastadu'r tir presennol i baratoi ar gyfer y gosodiad.

- Gosod ymylon dur i ddal y llwybr troed newydd yn ei le yn ddiogel.

- Gosod system bilen a GeoWeb, wedi'i llenwi â cherrig glân, i greu arwyneb sefydlog a pharhaol.

- Cloddio a leinio'r tanc gwanhau â cherrig glân, yn barod ar gyfer gosod y basgedi gwanhau, sydd bellach wedi'u gosod.

Beth sydd i Ddod Nesaf...

Dros yr ychydig wythnosau nesaf, fe welwch gynnydd parhaus wrth i ni symud ymlaen gyda:

- Gwaith celloedd a cherrig llwybr troed parhaus
- Gosid tarmac
- Lleoli dodrefn stryd

Wrth weithio yn y Parc, rydym wedi cael ein hysbrydoli gan y bywyd gwyllt rhyfeddol o'n cwmpas, atgofa dyddiol o ba mor arbennig yw Parc Hailey mewn gwirionedd.

Rhybudd: cadwch lygad am y stori sydd ar ddod "Y wiwer Gymwynasgar ym Mharc Hailey", a fydd yn dod atoch chi'n fuan!

Hoffem fynegi ein diolch diffuant am eich amynedd a'ch dealltwriaeth tra bod y gwaith pwysig hwn yn digwydd. Ar ôl ei gwblhau, bydd y rhan wedi'i huwchraddio o Lwybr y Taff yn cynnig profiad gwell, gan wella mynediad, diogelwch a mwynhad i bawb sy'n ymweld â Pharc Hailey.

Wrth y tîm cyfan, diolch i chi am eich cefnogaeth barhaus.

Os hoffech siarad â ni'n uniongyrchol am y prosiect, anfonwch e-bost atom yn:
Talktous@knightsbrown.co.uk

- Laid a membrane and GeoWeb system, filled with clean stone, to create a stable and long-lasting surface.

- Excavated and lined the attenuation tank with clean stone, ready for the installation of the attenuation baskets, which have now been installed.

What's Coming Next...

Over the next few weeks, you'll see continued progress as we move ahead with:

- Ongoing footpath cell and stonework
- Tarmac installation
- Street furniture placement

Whilst working within the park, we've been inspired by the wonderful wildlife all around us, a daily reminder of how special Hailey Park truly is.

Spoiler alert: keep an eye out for the upcoming "The Helpful Hailey Park Squirrel" story, coming your way soon!

We'd like to express our sincere thanks for your patience and understanding while this important work takes place. Once complete, the upgraded section of the Taff Trail will offer an improved experience, enhancing access, safety, and enjoyment for all who visit Hailey Park.

From all of the team, thank you for your continued support.

If you'd like to talk to us directly about the project email us at: Talktous@knightsbrown.co.uk
