Castle Street Improvements – Fortnightly Bulletin

29th October – 11th November 2026

Over the next two weeks, we'll continue to make progress across the various phases of the Castle Street improvement works. Planned activities include footpath construction and paving, drainage and ducting works, road construction, traffic-signal works, lighting columns, street furniture and landscaping.

Phase 2A

- Complete the pedestrian crossing slab area.
- Continue grouting the paving.
- Install semi-mature trees.

Phase 3

- Carry out trimming works to the island.
- Continue footpath surfacing and paving.
- Remove traffic management when the programme allows.

Phase 4

- Install traffic management and carry out trial holes.
- Complete site clearance.
- Carefully lift existing paving for reuse.
- Continue installing Emtelle ducting.

Phase 6

- Continue laying Pennant paving along the shop fronts.
- Install lighting columns.

Phase 7

- Continue removing and reinstating highway kerbs.
- Continue paving works.
- Progress road construction within areas A1 and A3.

- Install ducting and foundations for the air-monitoring equipment.
- Begin drainage installation.
- Progress signpost and lighting-column foundation works.

Phase 8A/B

- Continue footpath construction within area B2.

Phase 9

- Continue Emtelle ducting.
- Continue traffic-signal installation.
- Progress drainage works.

Phase 12

- Progress traffic-signal and NALS installation.
- Carefully lift existing paving for reuse.
- Install sign foundations and signposts.

Thank you for your continued patience and support while we carry out these improvements.
